Abdurrahman El Shavvaf

Full-Stack Web Developer (React, .NET Core, FastAPI)

+90 539 738 9476 abdurrahmansf18@gmail.com Ankara, TR
in/abdurrahmansf github.com/abdurrahmansf18-max x.com/abdurrahmansf

Profile

Motivated Software Engineering student specializing in web-based full-stack development. Currently developing modern and scalable web applications using backend and frontend technologies, with a strong focus on real-world projects. Able to work independently or as part of a team, with solid problem-solving skills and hands-on experience in building, deploying, and delivering complete web solutions to clients.

Areas of Expertise

Full-Stack Web Development - Backend Architecture - RESTful API Design - Network Programming (TCP/UDP) - System Programming - DevOps & VPS Management - AI-Assisted Development - Cybersecurity Fundamentals - Machine Learning & AI - Object-Oriented Programming - Data Structures & Algorithms - Web Deployment & Hosting - React & FastAPI - .NET Core - PostgreSQL - Docker - Git & GitHub - Problem Solving - Team Collaboration

Professional Experience

Software Engineering Intern, *(Rakort)* **Ankara, TR** *06/2023 - present*

- Completed a one-year internship at a technology-focused company providing software development and digital solutions.
- Contributed to full-stack web development tasks using FastAPI, .NET Core, React, and PostgreSQL.
- Collaborated within a professional team environment to build scalable and maintainable web applications.
- Gained practical experience in modern development workflows, problem-solving, and deployment strategies.

Full-Stack Developer (Freelance Project), *(Ergun Nakliyat Evden Eve)* **Ankara, TR** *03/2024 - present*

- Designed and developed a complete full-stack web application for a commercial client.
- Implemented both backend and frontend architecture using FastAPI, .NET Core, React, and Tailwind CSS.
- Managed deployment, hosting, and maintenance on VPS infrastructure.

Education

BSc Software Engineering *Ostim Technical University* **Ankara, TR** *2023-2027*

Relevant Courses: Computer Networks (TCP/UDP Programming), Database Management Systems, Data Mining, C & C++ Programming, Python Programming, System Programming, Web Development (React, FastAPI, .NET Core), Object-Oriented Programming, Machine Learning & Artificial Intelligence, Cybersecurity Fundamentals.

Skills

- **Programming Languages:** C, C++, C#, Python
- **Backend Development:** .NET Core, FastAPI, PostgreSQL, RESTful API design, Async & sync programming
- **Frontend Development:** React.js, Next.js, Tailwind CSS
- **DevOps & Infrastructure:** Docker (containerization), VPS setup - management, Deployment - Hosting(Hostinger)
- **Networking:** Basic computer networking knowledge, TCP/UDP communication fundamentals
- **Tools & Technologies:** Git & GitHub, Postman, GitHub Copilot, Google Antigravity, AI-assisted development tools
- **Soft Skills:** Teamwork and Independen, Analytical Problem-solving, Backend system design, AI workflow management

Languages

- **Turkish [Native]**
- **English [Basic]**
- **Arabic [Native]**
